About the Festival

The NextGen AI Festival 2025 was a two-day celebration of creativity, innovation, and hands-on exploration of Artificial Intelligence tools. It aimed to enhance students' understanding of AI and demonstrate its potential as a co-pilot to human creativity.

Day 1

“Think AI: Creativity Meets Technology”

136

No of Participants

33

No of Selected Participants

3

Winner Teams

Students were given a surprise theme “The City of Autonomous Minds: A city fully run by AI.”

They were asked to conceptualize, design, and produce a short film or video based on the theme.

They were encouraged to use various AI tools for content generation, editing, voice-overs, animation, storytelling, image generation, etc.

Day 2

“Live Demo Challenge: “Future Ready – Power of AI Tools”

136

No of Participants

16

Selected Participants

1

Winner Team

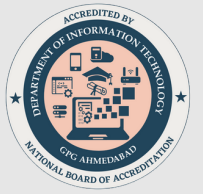

Students were challenged to perform a live task using AI tools within 10 minutes.

Each participant/group selected a unique problem statement or creative task and demonstrated:

- Task execution using AI in real-time
- Explanation of tools used
- Justification of AI's role in productivity or creativity

Event Glimpses

Voices of Creativity: Student Videos

Woh Din: A Soulful Journey from Past to Present- An emotional video capturing nostalgia, memories, and the bond between past and present with soulful music.
