

Report on Career Guidance & Counseling: Mapping Your Future

Date: 20/01/2026

Time: 3 PM to 4 PM

Department: Information Technology (IT Dept)

Participants: 74

Introduction

The Information Technology Department organized a Seminar on Career Guidance & Counseling: Mapping Your Future on 20/01/2026. The session was aimed at providing valuable insights into Artificial Intelligence, its real-world applications, and its growing importance in academia and industry.

Lecture Highlights

- The session began with an overview of Artificial Intelligence and its significance in modern technology.
- The expert explained various AI concepts, tools, and platforms currently being used in industries.
- Case studies and practical applications of AI in diverse fields such as healthcare, business, and education were discussed.
- Participants were introduced to emerging trends in AI, including machine learning and automation.
- Seminar concluded with an interactive Q&A session, where students clarified their queries and shared their thoughts.

Participation

A total of 54 students from the IT Department attended seminar. The students showed great enthusiasm and actively engaged in discussions. Their curiosity and participation made the Seminar highly interactive and meaningful.

Conclusion

The Seminar on Emerging Trends in Artificial Intelligence proved to be an enriching experience for the participants. It enhanced their understanding of AI and encouraged them to explore its applications further. The department looks forward to organizing more such seminar to keep students updated with emerging technologies.
