

Report on Seminar on Demonstration of an AI Tools

Date: 21/01/2026

Time: 2 PM to 3 PM

Department: Information Technology (IT Dept)

Participants: 45

Introduction

The Information Technology Department organized a Seminar on Demonstration of an AI Tools on 21/01/2026. The session was aimed to familiarize participants with AI-driven solutions and showcase how such tools can improve efficiency, accuracy, and decision-making across various domains.

Session Highlights

- Explanation of AI tool in assisting tasks such as data analysis, content generation, problem-solving, and automation.
- Explanation of AI concepts with practical examples
- Live interaction with the AI tool
- Demonstration of use cases in education, business, and research

A live demonstration was conducted, showing how the tool processes input and generates accurate and efficient outputs in real time.

Participation

A total of 45 students from the IT Department attended seminar. The students showed great enthusiasm and actively engaged in discussions. Their curiosity and participation made the Seminar highly interactive and meaningful.

Conclusion

The seminar on the demonstration of the AI tool was highly informative and successful. It enhanced participants' understanding of AI technologies and their practical applications. The session encouraged learners to explore AI tools responsibly and effectively in their respective fields.

Mapping with Programme Outcomes:

PO-1 Engineering knowledge	Addressed
PO-2 Problem Analysis	Not Addressed
PO-3 Design / development of solution	Not Addressed
PO-4 Engineering Tools, Experimentation & Testing	Not Addressed
PO-5 Engineering Practices for society, Sustainability and Environment	Not Addressed
PO-6 Project Management	Not Addressed
PO-7 Life-long learning solution	Addressed
